Submission ID:

Re: Experiments on fluid mixing in reversed multi-staged Tesla micro valves , submitted to Korean Journal of Chemical Engineering

Dear Dr. Tamrin,

We have removed your submission from our submission queue.  
Please feel free to contact me should you have any questions.

Thank you very much.

With kind regards,

Korean Journal of Chemical Engineering

As a result of the significant disruption that is being caused by the COVID-19 pandemic we are very aware that many researchers will have difficulty in meeting the timelines associated with our peer review process during normal times. Please do let us know if you need additional time. Our systems will continue to remind you of the original timelines but we intend to be highly flexible at this time.

This letter contains confidential information, is for your own use, and should not be forwarded to third parties.

Recipients of this email are registered users within the Editorial Manager database for this journal. We will keep your information on file to use in the process of submitting, evaluating and publishing a manuscript. For more information on how we use your personal details please see our privacy policy at <https://www.springernature.com/production-privacy-policy>. If you no longer wish to receive messages from this journal or you have questions regarding database management, please contact the Publication Office at the link below.
