10-Sep-2020

Dear Dr. Tamrin,

I am writing to you regarding manuscript JMES-20-1447 entitled "Enhanced fluid mixing using reversed multi-staged Tesla micromixer" which you submitted to Journal of Mechanical Engineering Science.

It is with regret that I have to inform you that your article has been rejected from Journal of Mechanical Engineering Science. As the journal is currently receiving high volumes of submissions, Associate Editors are assessing papers for suitability prior to full review. This relieves the load on reviewers and avoids long delays in processing papers for authors.

In this case it has been decided that your paper should not be considered further.

With this in mind, the Associate Editor has recommended that your manuscript is considered for publication in Advances in Mechanical Engineering.

Advances in Mechanical Engineering is an international, open access, peer-reviewed journal that publishes original research articles as well as review articles in all areas of mechanical engineering. The most recent Impact Factor for Advances in Mechanical Engineering is 0.640 according to the 2015 Journal Citation Reports released by Thomson Reuters (ISI) in mid-2016.

Articles are selected on the basis of whether the research is sound and on payment of an Article Processing Charge of \$2000. Publishing in Advances in Mechanical Engineering provides you with rapid but rigorous peer review, and quick decision times; global Open Access dissemination of your article via the SAGE Journals platform, powered by Highwire; high quality copyediting, typesetting and presentation of your article; and authors retain copyright under a Creative Commons license.

The APC is payable if the manuscript is accepted for publication. Payment of the APC will enable your article to be published online for all to access. Your manuscript files will be transferred to the Advances in Mechanical Engineering manuscript submission site and an account created for you to make it quick and easy for you to activate your submission, if you decide to proceed.

If you would like your manuscript to be transferred over for consideration in Advances in Mechanical Engineering please click on the following link:

ACCEPT TRANSFER *** PLEASE NOTE: This is a two-step process. After clicking on the link, you will be directed to a webpage to confirm. ***

https://mc.manuscriptcentral.com/jmes?URL_MASK=0150901e3e4b401b878ce880469eb755

If you do not wish to have your manuscript transferred, please select the following reject option:

REJECT TRANSFER *** PLEASE NOTE: This is a two-step process. After clicking on the link, you will be directed to a webpage to confirm. ***

https://mc.manuscriptcentral.com/jmes?URL_MASK=c7026a7d8fce44d7857bb19d5cea17ab

The Advances in Mechanical Engineering Editorial Office will follow up with you regarding next steps should you wish for your manuscript to be transferred. If you would prefer not to proceed with peer review in Advances in Mechanical Engineering, your right to submit your manuscript elsewhere is not affected.

Thank you for considering the Journal of Mechanical Engineering Science for the publication of your research. I hope the outcome of this specific submission will not discourage you from the submission of future manuscripts.

Sincerely,

Prof. Panos Liatsis
Journal Office, Journal of Mechanical Engineering Science
